Julia is offline until one – I presume this can wait until then, but please let me know if you need this to go sooner so I can start to line folks up.

+ Cheryl, OPPT comms, Mary H

OPA had one edit (see red font below). They have also cleared this language to go out via listserv, on the website, in an email to members, etc. today.

Steve- when can you get these web edits made? I'm hoping we can get this done asap..

Julia/Alison P- After our web goes live, can you issue your listserv?

**April 27-30, 2020, TSCA Science Advisory Committee on Chemicals Meeting on Asbestos POSTPONED**

EPA is postponing the Toxic Substances Control Act Science Advisory Committee on Chemicals (SACC) peer review virtual meeting scheduled for April 27-30, 2020, due to recent changes in the availability of members for this peer review. Given the importance of the draft risk evaluation for asbestos, the Agency believes that rescheduling for a time when more members are available is critical and will allow for a more robust review of the evaluation. As a result, the SACC meeting is being postponed to later in 2020. The Agency will issue another announcement once the new dates for the SACC meeting on asbestos have been determined.

While the Agency does not anticipate extending the written public comment period on the draft risk evaluation past the June 2, 2020, due date, as needs arise EPA will review and respond appropriately. All written comments received by June 2<sup>nd</sup> will be provided to the SACC for their review prior to the meeting. Once EPA has selected a new date for the meeting, the Agency will provide an update on public commenting, including registering to provide oral public comments during the SACC meeting. EPA is working through the potential impact postponing the peer review will have on finalizing the asbestos risk evaluation and remains committed to completing this process as expeditiously as possible.

You will continue to find information about the SACC meeting and links to related documents on the TSCA SACC website at <https://www.epa.gov/tsca-peer-review/peer-review-draft-risk-evaluation-asbestos>.

**Subject:** April SACC Communications

Allison and Cheryl,

I just want to confirm that the text pasted below is the final, approved text that will be used for the listserv and other IO communications regarding the postponed April SACC meeting. OSCP will use this text in our communications with SACC members and ad hoc reviewers. In addition, we will use this for our website notice (we'll share the draft with you) and we'll send this to the contractor for the Eventbrite site and for communications with the public (i.e., those who have already registered for April).

Please let us know when you expect the listserv to go out.

Thanks.

Steve
